

Blue Room News

January 2019

Welcome back and Happy New Year to all of you. I hope your winter break and holidays were fun and restful.

This month we have an overall focus on science activities along with winter. When doing experiments the children will predict what will happen, do the experiment and talk about the results.

We will be reading two versions of the story The Mitten; one by Jan Brett and one by Alvin Tresselt. We will talk about similarities, differences, and vote on the one we like the best.

Sharing Day/Show and Tell

Wed. January 13

Your child may bring one item to share with the class.

Pajama Day Thursday January 28

You may send your child to school wearing their pajamas and slippers. Sleeping bags, blankets, pillows or favorite stuffed animal friend may come too.

When I participate in circle time activities I am learning:

- to listen and understand spoken language**
- to add my ideas to the discussion. My ideas have value.**
- new vocabulary connected with the topic of discussion**
- to remember the words of songs and poems**
- to cooperate and be considerate of the needs of others**
- to help plan what we will do and what we will need to do it**
